

Desktop Complete

Have all your businesses digital productivity secured and fully available for collaboration through 4th Platforms Desktop Complete service. Fully supported by 4th Platform your business will have personalised email and documents accessible anywhere there is an internet connection.

Desktop Complete

Want to collaborate on your PC, tablet and phone with your teams and customers in a secure highly available way?

4th Platforms Desktop Complete is this service underpinned by Microsoft's Office 365 cloud-based platform available via the internet.

Desktop Complete is a subscription service that performs all the initial configuration to get you up and running on Office 365.

Our service goes beyond initial configuration. You and your team have access to our Service Desk and Technical expertise support on an ongoing basis.

4th Platform has the complimentary services you'd expect from full service IT business. Just Challenge Us!
